

Oak Hill School

Building Confidence, Courage and Character Through Relationships.

Our School

Oak Hill School provides educational services for students in grades 4 to 9 with emotional and behavioral challenges. These students are placed at Oak Hill Ranch by Alberta Child and Family Services. In cooperation with Oak Hill Ranch, Sturgeon Public Schools and Alberta Education, our school's primary objective is to provide a quality educational program tailored to meet the emotional, social and academic needs of each student. The program offers a therapeutic school setting that is designed to meet the academic and treatment needs of each student in a unique rural "ranch" setting. All staff are trained in both the Therapeutic Crisis Intervention (T.C.I) and the Children And Residential Experiences (C.A.R.E) models. Classrooms are designed to focus on individual student needs and teaching staff are complimented by educational assistants and child and youth care workers.

Our vision is to help the students we serve to build meaningful relationships, increase their self-efficacy and achieve their academic goals. Oak Hill is committed to providing a safe environment where every student can find success.
